DBA	Average graduation rate over four years	75%	58%
DBA	Average percentage of students per year who extended their enrollment periods and are currently active	25%	15%
DBA	Average attrition rates over four years	25%	27%

PhD	Average graduation rate over four years	75%	57%
PhD	Average percentage of students per year who extended their enrollment periods and are currently active	25%	22%
PhD	Average attrition rates over four years	25%	22%

**Indicators Used**

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
IMBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2016-17, 2017-18, 2018-19, and 2019-20. Enrollment period per student is 2.5 years, with the possibility to request re-enrollment to extend the initial period.
DBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2013-14, 2014-15, 2015-16, and 2016-17. Enrollment period is 6 years per student, with the possibility to request re-enrollment to extend the initial period.
PhD (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2012-13; 2013-14, 2014-15, and 2015-2016. Enrollment period is 7 years per student, with the possibility to request re-enrollment to extend the initial period.
