**Indicators Used**

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
IMBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2012-13, 2013-14, 2014-15, and 2015-16. Enrollment period per student is 2.5 years, with the possibility to request re-enrollment to extend the initial period.
DBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2009-10; 2010-11; 2011-12. Enrollment period is 6 years per student, with the possibility to request re-enrollment to extend the initial period.
PhD (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2008-09; 2009-10; 2010-11; 2011-12. Enrollment period is 7 years per student, with the possibility to request re-enrollment to extend the initial period.
